

BARTU WANTS TO BE GOVERNOR, BUT WILL NOT FIGHT FOR PLACE

Is a Believer in Organization and is For McDonald if the Governor Wants to Run Again; Is a "Machine" Man if Organization Means Machine, and is Not Too Modest to Say So if He Wants Anything.

BY GUTHRIE SMITH.

ALBUQUERQUE, N. M., May 15.—"If you are looking for a candidate, you are on a cold trail now," said state senator Isaac Bartu yesterday afternoon. He had been in and out of Albuquerque three times since Thursday morning, but that was the first time he had an opportunity to say as much as "hello" to him. It was after office hours and he was engaged with some clients who had come in from a distance when I went in and asked for a brief interview. He would be at leisure in just a few minutes. During the last hour of the interview, he went twice to the window, in response to the insistent "honk, honk" of an automobile on Central avenue. "My master's voice," he explained, as he went to one of the windows and called out to his wife in the machine on the avenue below, that he would be down in a very few minutes.

"Not a candidate senator Bartu? Many have said at least that you ought to be. It is reported that he is urging you to get into the race."

"Would like the honor."

"That is not at all," he replied. "I am no modest shrinking violet. I am in politics long enough to be willing to seek whatever honor that is desired, if it is to be had. I do not mean to leave the impression that I am not sensible of the honor of being nominated for governor and the honor of being elected governor, and that I would not like to have the honor. A senator's duty is kind enough to give the substance of the conditions under which you would be a candidate."

REPUBLICANS TO SECOND L. MARR

Local Business Man Elected Sweetwater Convention to Chicago Convention.

At the Republican district convention held at Sweetwater, Saturday, James L. Marr, of this city, was elected a delegate to represent the 16th Texas district at the national convention to be held in Chicago, J. E. McDowell, of Big Springs, was also chosen as a delegate from the same district.

El Paso was represented at the convention by P. A. Hazard, county chairman, James L. Marr and E. S. Goen. The delegation went to Sweetwater to determine that 21 Paso should have one of the two delegates to the Chicago convention. The results indicate that some good politics was played.

Hazard Does Active Work.

M. Hazard was the first of the local Republicans to reach Sweetwater after visiting other counties in the district. He was elected chairman of the delegation and was ready to support the selection of any other delegate provided El Paso was given one.

Mr. Goen went to Sweetwater from Dallas where he was elected grand chancellor of the Knights of Pythias in Texas.

Local Republicans who expect to attend the state convention at Fort Worth on May 22 are U. S. Goen, James L. Marr, P. A. Hazard, J. R. Larrabee, Jr. and D. Eagan.

because they live in any particular section of the district or county, but because they are qualified for the work that is to be done. We ought to get away from these old customs that are moth-eaten and moss-grown, but the time has not yet come when we can make the change. Both parties in this campaign will make selections with some reference to the geographical location of the men. As a practical, cold-blooded proposition, it appears to be unavoidable. The party which will win, while the party giving help will win. I do not believe the Republicans will nominate Burrum and Hubbell. This would give the state to Fall, Burrum and Hubbell within two small areas. And I do not believe the ticket will show Burrum, Hubbell and Hernandez. This would give the state to the Spanish-Americans at the head of the ticket. So large a representation of one race would be sure to provoke the strongest protest and opposition in the party.

Is for McDonald.

"If Gov. McDonald desires to be re-nominated, he is most assuredly entitled to the honor," L. Marr said. "I do not mean to oppose him. During the sessions of the legislature, I supported the governor and his policies. I stand ready now to render my support of the old measures, or to help advance any new ones."

Believes in Organization.

"It is organization that counts. Frequently the organization is called a machine. All right. If the people desire to use the term 'machine' as applied to party organization, then I am a 'machine' man. No success is possible in politics when organization is lacking. When two forces are opposed in the game of seeking and filling public offices, success is not achieved according to the patriotism of the respective parties, but upon the basis of the system and thoroughness of the organization. What chance would a band of patriots, unorganized, have against a gang of bootleggers and thieves with a force of highly trained workers? None. Absolutely none."

"On this subject, I want to say that I am opposed to the geographical selection of candidates. It is not in accordance with the principles of right and justice, and is conducive to efficiency in public service."

67 MAKE TRIP TO CLOUDROCK

Manager to Open Lodge and Arrange Lunch For Texas Editors.

Sixty-seven passengers went up to Cloudcroft Monday morning on a special car attached to the regular north-bound train. At Alamogordo a special train took them to Cloudcroft. Those who wished to return today had an hour and a half at the "roof garden" to look after their cottages. Some went up to remain all summer, some to return Wednesday afternoon. Miss M. D. Greene, who is in charge of the Baby sanatorium this summer for the Equal Franchise league, went up to open the sanatorium. Several El Pasoans with sick babies also made the trip.

On the train was M. R. Hutchins, who is to manage the Lodge this year, who was accompanied by A. N. McCorkle, assistant auditor of the El Paso & Southern railroad, who went to check him in and turn over the property to him. Mr. Hutchins will busy himself with getting the Lodge ready for the opening on June 1.

After checking in Mr. Hutchins, the auditor will check in agents for the company at Mountain Park and High Rolls, N. M. Agents are not maintained at these points during the winter months.

Mr. Hutchins will take up with the business men of Cloudcroft, High Rolls and Mountain Park the plans for entertaining the Texas Press association delegates in June with a luncheon. The press men are to be given an excursion to Cloudcroft and Mr. Hutchins desires

to have the business men of the mountain country entertain them at luncheon at the Lodge.

How to Save Your Eyes

Try this Free Prescription.

Do your eyes give you trouble? Do you already wear eyeglasses or spectacles? Thousands of people wear these "windows" who might easily dispense with them. You may be one of these, and it is your duty to save your eyes before it is too late. The eyes are neglected more than any other organ of the entire body. After you finish your day's work you sit down and rest your muscles, but how about your eyes? Do you rest them? You know you do not. You read or do something else that keeps your eyes busy; you work your eyes until you are so tired that you finally get eye troubles that threaten partial or total blindness. Eyeglasses are merely crutches; they never cure. This free prescription, which has benefited the eyes of so many, may work equal wonders for you. Use it a short time. Would you like your eye troubles to disappear as if by magic? Try this prescription. Go to Kells & Pollard's, the nearest wide-awake drug store and get a bottle of Optima tablets; fill a two-ounce bottle with warm water, drop in one tablet and allow it to thoroughly dissolve. With this liquid bathe the eyes two to four times daily. Just note how quickly your eyes clear up and how soon the inflammation will disappear. Don't be afraid to use it; it is absolutely harmless. Many who are now blind might have saved their eyes had they started to care for them in time. This is a simple treatment, our marvelously effective in multiple cases. Now that you have been warned don't delay a day, but do what you can to save your eyes and you are likely to thank us as long as you live for publishing this prescription.—Adv.

For Ten

A package of New Post Toasties provides servings for ten people—a delicious breakfast dish—corn flakes with new form and new flavour.

New Post Toasties are known by tiny bubbles raised on each flake by the quick, intense heat of the new process of manufacture.

They bear the full, true flavour of prime, white Indian corn, not found in corn flakes of the past; and they are not "chaffy" in the package; and they don't mush down when milk or cream is added, like ordinary corn flakes.

Try some dry—a good way to test the flavour, but they are usually served with rich milk or cream—

Mayor Plans City to Get Scenic Point

Wants to Make Police and Fire Department Independent of Politics.

Civil service for the police and fire departments is the hope of Mayor Tom Lea before he leaves office.

Mayor Lea is now planning to ask the next legislature to amend the city charter as to provide for civil service for the police and fire departments. Whoever is elected to serve the equity in the legislature will be asked to introduce a measure that will enable the city to change from the present system of appointments.

Only Way.

"I believe that the only way to handle the two departments is to place the men under civil service," said Mayor Tom Lea Monday. "It tends to efficiency because a man appointed to either of the departments knows that so long as he does his duty he will hold his job. The plan is in vogue in most of the cities of the country, and I see no reason why it would not work here. In fact, I feel certain that better results would be obtained. The police and fire departments are two of the most important in the city, and they should be built up to a high degree of efficiency. This can best be done if the men are free from political influences and realize that their only misconduct will lose them their jobs."

City Limits.

Mayor Lea is also desirous of securing action by the coming legislature looking to the redefining of the city limits. The mayor has not worked out his ideas, but desires some changes in boundary lines.

Practical politics. There is not a little in all of his big body, and I mean to do all I can to help him into the governor's chair. This public position does know him better as a politician than as a lawyer. Thousands of people who never go into the court room and do not keep informed as to court decisions, have heard his speeches that are filled with kindness and good fellowship. That is how the lawyer and actual business man is submerged in the kind hearted man who always is trying to lift the world out of the rack of troubles."
